

GKB TOPDROP

The GKB Topdrop is a versatile drop-dresser suitable for use on both natural and artificial playing surfaces. Speed, application thickness and direction can all be adjusted, making it ideal for spreading sand or artificial infill material to suit a range of surface requirements

Built from high-quality, robust steel, the Topdrop delivers strength, rigidity and long-term reliability. Designed using the practical experience of GKB's contracting division, it offers simple and user-friendly operation.

Key features include a pivoting wheelset with four balloon tyres for stability and low ground pressure, easily adjustable layer thickness via a variable speed brush, and optional road-ready equipment including a bumper, lighting and an overrun brake.

Model No.	Description	Working Width	Weight	Tractor HP (Min.)	RRP ex GST	RRP inc GST
TD114	Topdrop 1.0 m ³	140cm / 55"	775kg	20	AU\$40,013	AU\$44,014
