

FIELDQUIP

SAMURAI 20 FLEX WING SLASHER

The all-new Samurai 20 from Fieldquip Ag & Turf sets a new benchmark in high-capacity pasture mowing. Engineered for performance and efficiency, it delivers fine cutting and semi-mulching power without the excessive horsepower demand of comparable machines.

Designed for larger-scale operations, the Samurai 20 features a heavy-duty 5-spindle design and 1000 RPM PTO driveline for superior power transfer and consistent performance across its full working width. Its unique high-lift blade system handles tough terrain up to 100mm cutting capacity while maintaining a clean, even finish. The flat-top and underside deck design reduces debris build-up and minimises seed transfer between paddocks for cleaner, more efficient mowing.

Built for durability and productivity, the Samurai 20 combines robust construction with folding wings for safe, convenient transport between jobs.

KEY FEATURES:

- Cutting Width: 6.5m
- Transport Width: 2.7m
- Heavy-Duty 5 Spindle Design
- 1000 RPM PTO
- 100mm cutting diameter capacity
- 1 x 250HP (186KW) Splitter Gearbox
- 5 x 165hp (123kW) Rotor Gearboxes
- Designed for efficiency, durability and high performance

When scale, strength and efficiency matter, the Samurai 20 delivers.
