

RHINO

REBEL SERIES ROTARY TILLERS

The Rhino Rebel Series Rotary Tillers combine state-of-the-art design with heavy-duty construction to deliver reliable soil preparation across a range of applications. Available in multiple working widths, tine rotation is standard (forward rotation), providing strong soil penetration and a consistent, professional finish.

Each rotor flange is fitted with six hardened "L" shaped blades for effective mixing and tilth. Built for durability, the Rebel Series features continuously welded hitch points, 1/2" steel end plates and a robust cast iron gearbox housing. Slip-clutch driveline protection comes standard to reduce shock loads and minimise downtime, while reverse models include a metal debris deflector for added protection.

HITCH COMPATIBILITY:

- CAT 1 Standard and Quick Hitch (5 ft & 6 ft models)
- CAT 1 & 2 Standard and Quick Hitch (7 ft model)

Ideal for homeowners, contractors, landscapers, and orchard or vineyard operators, the Rhino Rebel Series delivers dependable performance, strength and long-term reliability

Model No.	Description	Working Width	Weight	HP (Min.)	RRP ex GST	RRP inc GST
