

# SPEARHEAD MULTICUT 650 PRO-LINE FLEX WING SLASHER

The Spearhead Multicut 650 Pro-Line is a heavy-duty 6.2m flex wing slasher built for serious acreage and high work rates. Designed for broadacre pasture topping, stubble management and farm maintenance, it delivers fast, consistent output in tough conditions.

Five rotors fitted with Spearhead's six-blade Starcut system (30 heavy-duty blades in total) provide an exceptionally fine chop from grass through to light scrub. The even spread across the full cutting width leaves a clean finish, outperforming comparable three-rotor machines.

A heavy-duty driveline with a 250hp input gearbox and high-capacity rotor gearboxes ensures reliable power transfer, all protected by slip clutches for durability in demanding work. Hydragas suspension, built-in shock absorbers and a walking axle improve stability and reduce ground pressure, while wide industrial tyres provide better flotation across uneven ground. Hydraulic wing lift and mechanical wing float allow the mower to follow contours, and folding wings reduce transport width to 2.8m for safer road travel.

Built to handle hard use, the 650 Pro-Line features a reinforced smooth deck, full-length side skids, anti-scalp dishes, full-width safety chains, integrated seal protection and a rear lighting kit. A 7-year gearbox warranty backs its long-term reliability.

## KEY FEATURES:

- Cutting Width: 6.2m
- Transport Width: 2.8m
- Five rotors with 30 heavy-duty blades
- 250hp input gearbox
- Slip clutch protection
- Hydragas suspension with walking axle
- 7-year gearbox warranty
- 1 x 250HP (186KW) Splitter Gearbox
- 5 x 165hp (123kW) Rotor Gearboxes

**Built for high hectares per hour, durability and dependable performance.**
