

SPEARHEAD OUTFRONT FLAIL MOWER

The Spearhead Outfront Flail Mower is a compact, high-performance front-mounted mower designed for councils and contractors requiring reliability, versatility and a superior finish.

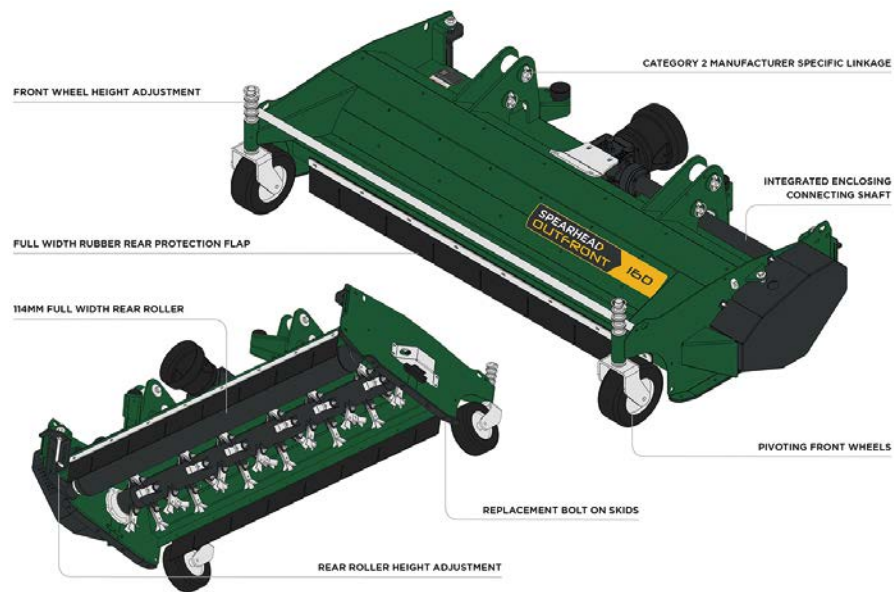

Featuring a spiral rotor design and heavy-duty hammer flails as standard, the Outfront delivers a consistent, high-quality cut in material up to 30mm in diameter. Available in a 1.6m cutting width, the machine ensures efficient coverage while maintaining excellent finish quality. A 4½” rear roller further enhances cut consistency and ground contouring.

A robust three-belt drive transmission provides dependable power transfer, while easily adjustable cutting height and front guide wheels improve operator control and ease of use. Built for durability and all-day performance, the Spearhead Outfront Flail Mower is a reliable solution for demanding municipal and contractor applications.

Built to integrate seamlessly with leading front mower carriers via a two-point linkage system, the Outfront provides adaptable fitment for widely used municipal platforms.
