STUBBLE MASTER 730

When you have more hectares to handle opt for a 7.3 metre machine. The 730 boasts the same specialist build as the 500, complete with 165hp (123kW) gearboxes.

Larger farmers and contractors welcome five rotors in play. Each turns three flat and three angled blades to deliver Stubble Master's infamous double cut. This helps to speed up decomposition and improve your soil structure.

The monocoque deck design leaves nowhere for debris to collect, while the cutting height adjustment means you can cut within touching distance of the soil.

- Five rotors tackle 7.3 metres at once.
- Easy cleaning thanks to monocoque design.
- Finetune your cutting height for maximum output.

	TRACTOR HP	TRANSPORT WIDTH	CUTTING WIDTH	PTO SPEED	GEARBOX RATING	NUMBER OF WHEELS	NUMBER OF ROTORS	NUMBER OF BLADES	CUTTING HEIGHT
SPEARHEAD STUBBLE MASTER 730	160hp (119kW)	2.56m (8' 5")	7.30m (23' 11")	1000rpm	250hp (186kW) & 165hp (123kW)	8	5	30	0 – 300mm (0" – 11 13/16")
